1. DDS e-Dossier: Swiss representation of US interests in Cuba

On occasion of the imminent renewal of the diplomatic relations between the US and Cuba, the Swiss mandate for the representation of US interests will be discontinued. In the light of current events, the research group of the Diplomatic Documents of Switzerland compiled an e-Dossier with relevant documents concerning Swiss representation of US interests in Cuba from the online database Dodis (dodis.ch) that will be published in the next few days.

Please find the text of the e-Dossier attached. We hope that this information will attract your interest. The documents can be cited by using the permalink, i.e. dodis.ch/15005 (cf. <http://www.dodis.ch/en/disclaimer>)
